Blue Trout Caught	N/A	Total Trout Caught	1

Tactics and information:

We ended what's been a really good season at Fernworthy with just the one return card from the last few days of the season which is hardly surprising given the weather at the end of last week!

The only angler did catch one fish of 1lb in size using a Black gnat from the North East bank.

There has been some great sport at the lake this year and we have been supported by our fantastic bailiff team who have done a great job. We are looking forward to the 2019 season already and watch this space for information on improvements and a potential exciting offer for Fernworthy!
