

## **SIBLYBACK WEEKLY FISHING REPORT** **WEEK ENDING: 25 August 2019**

Good afternoon. Here is this week's Catch Report from Siblyback Lake.

### **Report by** **Ron Wilday – SFFA.**

Well rumours from SFFA members say that the water temperature at Siblyback have now dropped to a level where the fish are coming back up and feeding again - Also I hear a few fish have been caught over the last couple of weeks!

So Friday afternoon I ventured up to Siblyback armed with a new fly - new to myself that is. Last week at our SFFA meeting Derek Auger gave us many of his tips to improve our fishing. Now we can all fish and catch a few but these were just small changes / improvements to make the difference - including Derek's favourite fly's - one of which is the snatcher. I was not sure what a snatcher fly was so I got the books out and checked the internet – and tied myself a couple up.

Set up on Friday afternoon - Damsel on the point, Montana middle dropper and the Snatcher on the BOB fly - top dropper, if I remember right that's what Derek advised it was called.

Third cast along two meadows pulled in a Rainbow about 1lb 10oz.

Two cast later, same spot, pulled in a fantastic Brown trout about a foot long - both to the snatcher.

I wandered round to Stocky bay where two others were fishing - one had landed a small brownie the other nothing.

I made my way back to two meadows and fished up to 6.45pm - stomach rumbling ready for food by now, I went home but plenty of fish were coming up now gorging on small fly's on top of the water - Ants.

So, I still think early morning or evenings the best time to go fishing at Siblyback.

**SNOWBEE COMPETITION:**  
SFFA have their next Snowbee league competition on **Sunday 1st September** hope to see all the members there.

Tight lines - Ron

### **Deep Mud Warning**

With the water level still low the mud is showing and is deep in places especially towards the nature reserve

and in front of the woods, so do take care out there and please take note of any signs you come across.
