

KENNICK WEEKLY FISHING REPORT
Week ending 1st September 2019

Boat fishing is still the best option at Kennick with the deeper water producing a few fish with browns feeding more than the Rainbows. The water level is high at 90% for this time of year and the water temperature is less than 20 degrees which is also unusual for the beginning of September.

Darren Everitt had a cracking Rainbow of 3lb 12oz last week! Damsels and blobs have been the best flies with some dry fly action too.

We are looking at stocking again now and will be discussing this with our suppliers.

Why not try our 3 hour anytime ticket for £13 which will allow you to take advantage of the cooler early mornings or late evenings.

Don't forget to get your entries in for the Best of the Best final which is on September 29th at Kennick. More details here:

GREAT NEWS FOR KENNICK ANGLERS.....We are only stocking fish of 2lbs and over this season. You will catch a few overwintered fish which will be below the 2lb mark at the start of the season and after a period of time fish will reduce in size but they are being stocked at 2lbs or more.

Please send me in any pictures you might have of the fishery or fish you have caught or anything interesting.

BREAKING NEWS.....Our trout angling strategy and major changes for 2019 are viewable here:
